

## Houghton Village Neighbourhood Development Plan

**We need your help again!**

**Hopefully you will remember the survey we did some time ago to gather information about parishioners' wishes for the future of the village. I expect you thought we had forgotten about the project ..... wrong! We have been very busy in the background trying to get the Plan finished, and we are very close.**

**We have employed the experienced services of Dr David Nicholson, NDP Planning Consultant, to draw up a formal NDP, based on your survey responses, for submission to TVBC. David has sent us a draft Plan, and it is with this that we need your help please.**

**The next part of the process is to discuss the draft Plan with you, the parishioners. We need you to check that the Plan and its Policies reflect your views as expressed in the various surveys that you have completed.**

**Previously a few of you have expressed an interest in being involved in this part of the process and we would like to involve as many parishioners as possible.**

**What we would like you to do is to read through the report and comment on how it sets out the vision and objectives for the future of the village based on the responses to the surveys that have been undertaken. You will be able to find the draft NDP and the other relevant reports on the village website.**

**If you want some background supporting information you can also find the original surveys on the village website.**

**Please note we cannot change the content of the survey on which David has based his NDP Report - we just need confirmation and comments about how accurately you feel the draft Plan reflects the parishioners' views.**

**We are grateful that Ingrid Burt has volunteered to collate your responses so please email her at [Ingrid@blacklakefarm.co.uk](mailto:Ingrid@blacklakefarm.co.uk)**

**Responses need to be sent to Ingrid by 7<sup>th</sup> May 2020.**

**Thank you in anticipation of your help !!!**

**Alan Young, Bev Barker, Sue Otten, Llyn Adams**
